By Motion Type — Kinematic Object Motions (Horizontal, Vertical, Circle, Hold) | Dynamic Object Motions (Obj Drop, Slide, Throw, Tumble) | Sand Free-Fall (Flat Ground)

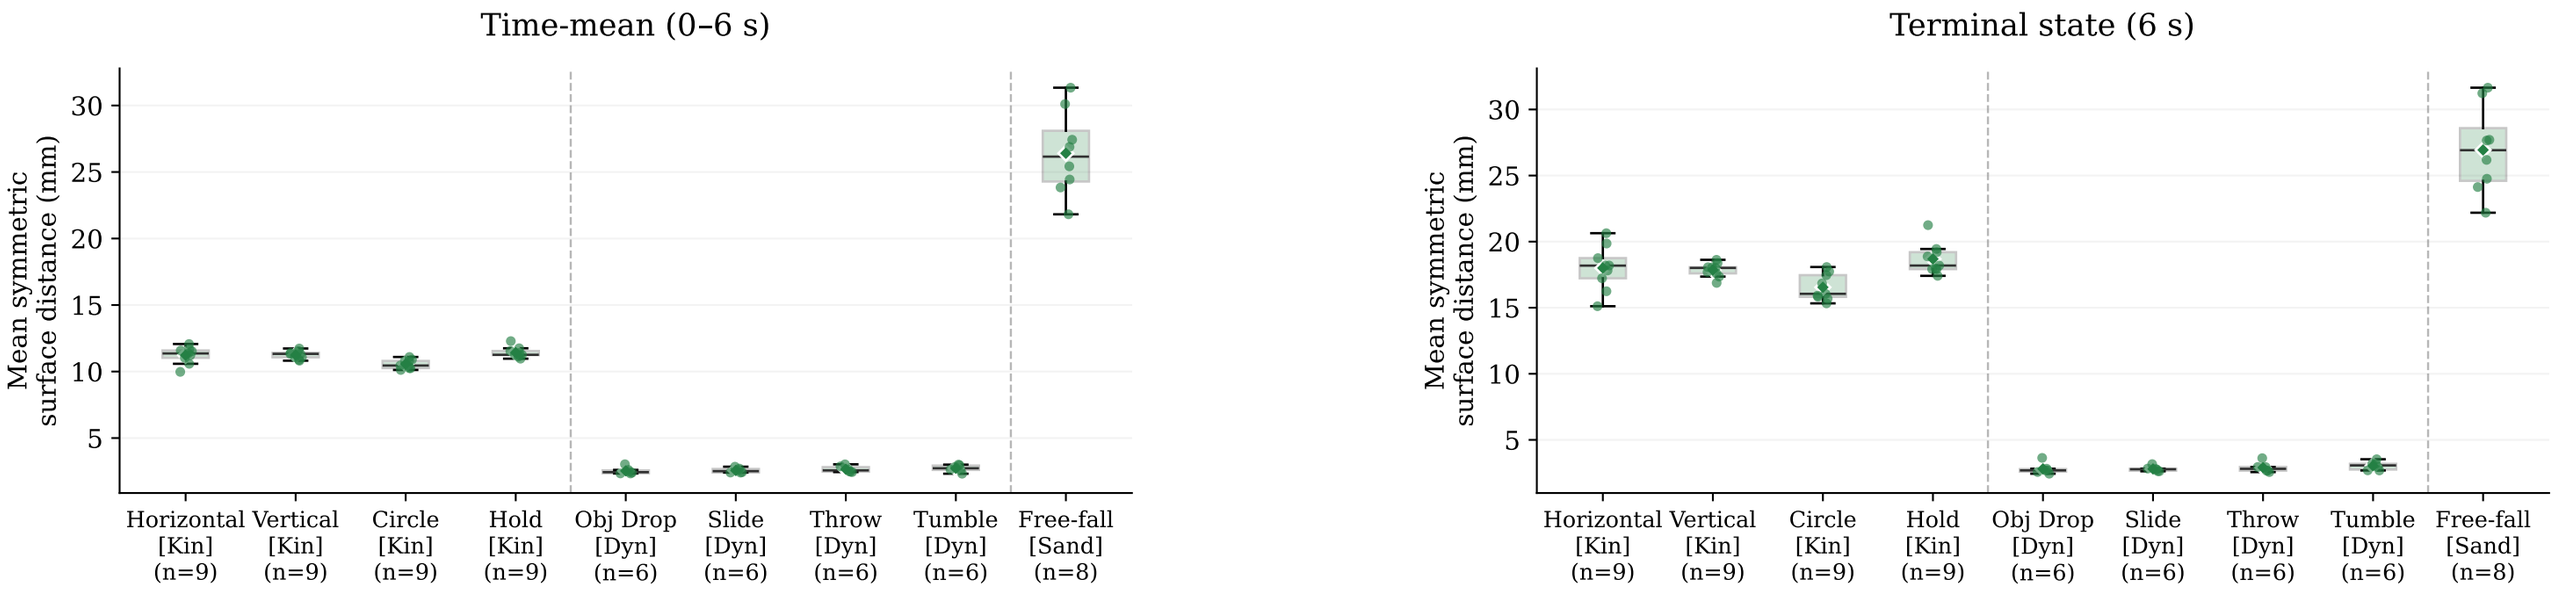

Figure 2b: Frozen object-model checkpoint 10,800. Symmetric sand-surface distance grouped by motion: Kinematic object motions (Horizontal, Vertical, Circle, Hold), Dynamic object motions (Obj Drop, Slide, Throw, Tumble), and Unconfined Sand Free-Fall on flat ground (no object).
